

Night Cafe

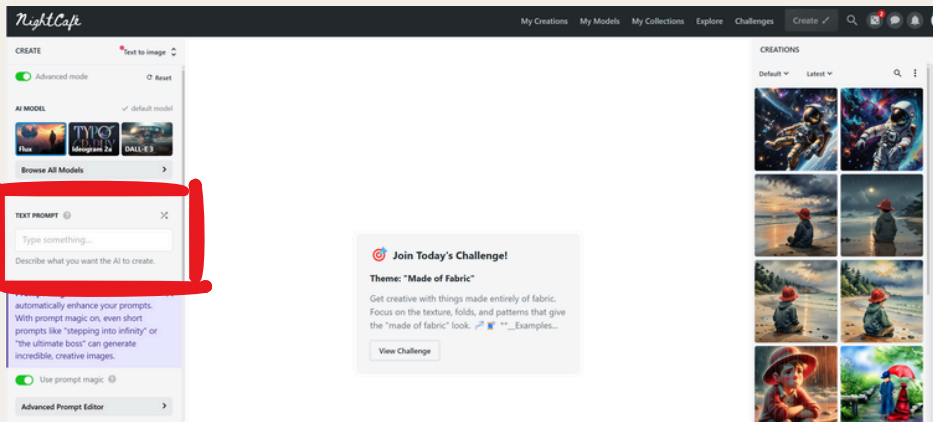

Getting Started: The "Create" Interface

- When you enter NightCafe, you will find a button that says "create". After pressing that button, you will be taken to the creation page. This page is where you will input all of the information that the AI will use to create your image.
- Visually, you'll see a prominent text box for your prompt, and various drop-down menus and sliders for settings.

Entering Your Prompt

- This is where you type in your desired image description. For Example "A vibrant sunset over a mountain range, painted in the style of impressionism".
- Imagine a blank text box, ready for you to fill it with your creative vision.

Selecting an AI Model and Settings

- You'll choose from models like Stable Diffusion, DALL-E, etc. Each has its own style.
- Below the model selection, you'll find settings:
- Style: Presets (e.g., "realistic," "fantasy") or custom options.
- Resolution: Image size (e.g., 512x512, 1024x1024).
- Runtime: How long the AI processes the image.
- These settings are generally displayed in drop down menus, and sliders.
- Imagine drop-down menus with various options, and sliders that adjust the image properties.

Generating the Image

- Click the "Create" button. The AI processes your prompt and settings.
- Visualise a loading bar, or a spinning icon, indicating that the AI is working.

Reviewing and Refining

- Your generated images appear.
- You'll see thumbnail previews of your creations.
- Options appear below each image:
- "Upscale": To increase resolution.
- "Evolve": To create variations.
- Download: To save the image.
- Imagine a grid of generated images, with buttons below them.

Key Visual Elements:

- **Text Prompts:** The core input, driving the AI.
- **AI Model Selection:** Drop-down menus to pick the AI engine.
- **Settings Sliders/Menus:** For fine-tuning image properties.
- **Image Grids:** Where generated images are displayed.
- **Buttons:** For actions like "Create," "Upscale," and "Download."

Looking forwards to seeing your Images!

VILLAGE PEOPLE

Extra Credit

Daily Login Bonus:

- **Action:** Simply log in to your NightCafe account (either through the website or the mobile app) at least once every 24 hours.
- **Reward:** You'll receive a daily of 5 free credits.
- **Key Point:** This is the easiest and most consistent way to accumulate free credits.

2. Participating in Daily Challenges:

- **Action:** Navigate to the "Challenges" section on NightCafe.
- **Vote** in the daily challenges.
- **Reward:** You'll earn additional credits for your participation.
- **Key Point:** This is a great way to engage with the NightCafe community and discover new artwork.

3. Social Media Sharing:

- **Action:** Share your NightCafe creations on social media platforms like Instagram or TikTok.
- **Make sure** you follow the guidelines that NightCafe provides within the "Road to mastery" section of your user profile.
- **Reward:** You can earn credits by sharing your creations.
- **Key Point:** There are usually requirements to follow, such as having a minimum amount of followers.

4. Earning Badges:

- **Action:** NightCafe offers various badges for completing certain actions or milestones.
- **Explore** the "Master NightCafe" page within your account to see the available badges and how to earn them.
- **Reward:** Earning badges often rewards you with free credits.
- **Key Point:** This encourages active participation and exploration of NightCafe's features.

Important Notes:

- **Credit rewards and the specific actions** required to earn them may change over time.
- **Always refer** to the official NightCafe website or help resources for the most up-to-date information.
- **Pay close attention** to the time that the daily credits reset, which is based on UTC time.
